What Is Smart School MIS ?

Smart School MIS is a Cloud based Management Information System (MIS) which focuses on the management of information to provide efficiency and effectiveness of strategic decision making in educational organizations.

Our MIS professionals help organizations to maximize the benefit from investments in personnel, equipment, and educational processes.

It is fully cloud based system and it does not required any hardware configurations at your institute. We do not required any type of investment from your side.

Why Smart School MIS ?

Smart School MIS can help Organization to identify their strengths and weaknesses due to the presence of various reports, employee's and student's performance records.

Identifying these aspects can help a organization to improve its academic work processes and operations.

MIS gives an overall picture of your organization. Acts as a communication and planning tool.

MIS reports can help to take decision and action on certain object with quick time.

The availability of student's and employee's data and their feedback can help the organization to align its academic work processes according to the needs.

The effective management of student's data can help the institute to perform effective decision making and promotion activities.

MIS can help an organization to gain a competitive advantage. Competitive advantage is a institute's ability to do something better, faster, cheaper, or uniquely, when compared with rival institutes in the education system.

Modules of Smart School MIS

Pre Loaded Modules	Ad-On Modules	Mobile Apps, Portals & Ad-On Modules
Attendance Management System	Training and Placement System	Android Mobile Apps
Feedback Management System	Result Analysis System	iOS Mobile Apps
Online Examination System	Library Management System	Suggestion Box
E-Notice System	Store Management System	Student & Parent Portal
Syllabus Coverage System	Hostel Management System	Alumni Portal
Learning Material System	Report Card Generator	Authority Portal
Teacher Guardian System	I-Card Generator	Organization Portal
Alumni Information System	Account Management System	Analytical Dashboards
Student Information System	Work Compliance System	Document Management System
Faculty Information System	Leave Management System	Autonomy Exam Management System
Fees Collection System	Payroll Management System	Learning Management System (LMS)
Transport Management System	Online Admission System	Faculty Appraisal System
Grievance Redressal System	Dynamic Institute Website	Outcome Based Education (OBE)

Set up Smart MIS for your institute within 15 minutes using these modules.

Best compatible with every browser enabled smart device like Mobile, Laptop, Tablet PC, Desktop PC.

Key Features of Smart School MIS

Fully Cloud Based

Smart School MIS is fully cloud based system and it is developed by using most advanced cloud technologies.

More Secure

It is developed by using most advanced cloud security algorithms to protect your private information.

No Hardware Installation

It does not required any type of hardware & Networking configurations and installation at your location.

24*7 Live Support

We are here to help. From start to completion, Our professionals help you to solve your all queries.

Platform And Device Independent

It can run on any platform like windows, linux or mac as well as on any smart device like mobile, laptop, tablet, desktop etc

Simple And User Friendly

It is very easy for use. No need of any technical knowledge. Training sessions for new users.

We Will Build
DigitalINDIA
By Providing Digital Literacy Skills To All

Difference Between Smart School & Existing MIS

Smart School MIS

- ✅ No Hardware Requirements

- ✅ Easily work with low internet speed

- ✅ Easy and quick data uploading with existing Excel sheets (Within 15 minutes)

- ✅ Build on " You use…We configure" basis

- ✅ Extremely loosely coupled. Buy any module use any way you want. Each module is independent

- ✅ No need of technical knowledge Extreme level of simplicity

- ✅ Dedicated 24 X 7 customer care support

- ✅ Instant activation of each module, within 15 mins your institute will be on MIS

- ✅ Role based benefits for President, Principal, Faculties, Students, Parents, Alumni, Office, Governing Authorities, Committee, Accreditation, T&P

Traditional MIS

- ⚠️ Need vast Hardware & Networking Configurations

- ⚠️ Required high speed internet

- ⚠️ Data uploading work is very tedious And hectic

- ⚠️ Required more man power & huge Resources for configurations

- ⚠️ Modules are internally attached with each other

- ⚠️ Very complicated for use

- ⚠️ No guarantee of support

- ⚠️ Takes more time for configurations And actual use

- ⚠️ Very tedious procedure for every role because of central connected system, Many functionalities will never work, Hence It will be wastage of resources

Smart School MIS	Traditional MIS
✅ Platform and device independent, Plug and play operations	⚠️ Need specific platform & server configurations
✅ Mobile, Laptop, Desktop, Tablet PC compatible	⚠️ No device independency
✅ No need to have experts..We will do it for you	⚠️ Need technical experts at your place
✅ More secure, Built by using advanced security algorithms	⚠️ Less secure, No guarantee of device and data security
✅ Data backup And Data security is our responsibility	⚠️ Data backup is very hectic job
✅ Instant notifications to students, parents, faculties, alumni etc via sms, email	⚠️ No inbuilt functionalities for instant notifications
✅ More and advanced functionalities in each module with more simplicity	⚠️ No advanced functionalities
✅ Separate account for each department of each institute. Hence Complete isolation.	⚠️ Centralization makes it more complex for use
✅ Challenging price in the market Starting from 10 K per institute (Equal to nothing)	⚠️ Very high range of pricing from 2 lacs to 30 lac per institute

Smart School MIS

- ✅ Separate domain for every institute, Central control on multiple institute from anywhere

- ✅ 15 minutes Go Live period, 30 minutes for whole data uploading procedure which can be done by both ends..We will do it for you !

- ✅ Mobile apps for every role like faculties, students, principal, president, admin, alumni, parents

- ✅ Everyone will enjoy working with this tool, built to reduce overhead and simplify teaching learning and managing processes

Traditional MIS

- ❗ No multi institute facilities, Have to setup separately for every institute.

- ❗ Takes lot of time for setup, some times it will be 6 months or more than that, Information filling is very tedious task

- ❗ Very poor platform independent facilities

- ❗ Tired feeling for every resource while working with it. Software itself is a overhead for faculties

Cost of Smart School MIS

Challenging functionalities, Challenging technology And Challenging PRICE in the market

SUPPORTING DIGITAL INDIA

Our vision is to transform every educational institute in India into digitally empowered organization. Including smallest schools from rural areas to largest educational universities.
